SCHOOL PERFORMANCE FACT SHEET
Reporting for Calendar Years 2014 & 2015

OVERVIEW

In compliance with the California Postsecondary Education Act of 2009 and in recognition of the importance of consumer protection, University of the People (UoPeople) publicizes information about its programs. The Bureau for Private Postsecondary Education (BPPE), as the regulatory body for private postsecondary institutions in the State of California, requires that an institution provide information to students, prior to enrollment, on completion rates, placement rates, licensure examination passage rates, and salary/wage information, as relevant.

ACCREDITATION STATUS

University of the People is recognized by the Distance Education Accrediting Commission (DEAC) as an accredited online University, and adheres to all DEAC Standards and Code of Ethics. The DEAC is listed by the U.S. Department of Education as a recognized accrediting agency. DEAC is also recognized by the Council for Higher Education Accreditation (CHEA).

COMPLETION DATA

UoPeople admits new students five times a year. Students can choose to study on a full-time or part-time basis and can request to be on leave for one or more terms. The flexibility to study at one's own pace means that students progress through their programs of study at different rates; however, students pursuing an Associate of Science degree must complete the degree within twenty-five terms of active study (the equivalent of 5 years). Students pursuing the Bachelor of Science degree must complete the degree within fifty terms of active study (the equivalent of 10 years). Currently, most UoPeople students opt for part-time enrollment and/or one or more terms on leave during the course of their studies, although there are some who do choose to study full-time every term of the year. Consistent with UoPeople's published standards for time-to-degree, data provided below reflect the degrees conferred in the focal years (2014 and 2015).
